

To Whom It May Concern,

It should my choice as a paying customer to have the option of getting my local news and traffic on XM Satellite Radio! I ask that you reject NAB petition 04-160. I understand that I can local news and weather via free radio but seeing as I willfully pay for the XM service and all that it offers I feel that they should be able to continue to offer this beneficial feature.

Sincerely,

Josh Gershenbaum  
Concerned Customer
